Data Analytics Process

TOPIC: Going to buy new bike.

Plan: In planning we first decide which company bike would like to buy. Is it Honda ,Hero ,KTM or any other companies.

Prepare: Next I will decide how much money I'm going to spend on the bike, and arrange that money I would like to spend on it.

Process: Like next in process of buying the bike, if I decide to buy bike from the Hero company than I will decide which bike should I buy whether Xtreme/Xpulse/Glamour etc.

Analyze: Here you won't buy the bikes which are not trending or the bike which does not give good milage, So you will analyze all the features of the bike and you decidethe best suitable bike for your personality.

Share: Now communicate with Sales person and share all the requirements and features you would like have. And get the best suitable bike for you.

Act: You finally take the action to buy the bike.
